SAMUEL HEATH

Handmade in England

MADE FOR AUSTRALIA

A Legacy Cast in Brass.

Founded in 1820 in Birmingham, England, Samuel Heath stands among Britain's most distinguished design and manufacturing houses, renowned for creating exquisitely crafted brassware of exceptional quality and enduring beauty.

For over 200 years, the company has remained steadfast in its commitment to craftsmanship, integrity and provenance. From its origins as a traditional brass founder serving the finest homes of England, Samuel Heath has preserved the skills and values of British manufacturing while continually evolving to meet the demands of contemporary luxury living.

Today, Samuel Heath is celebrated worldwide for its oeuvre of elegant kitchen and bathroom tapware, showers, accessories and architectural hardware. Each piece reflects a unique combination of heritage, meticulous engineering and refined design, crafted from the finest materials and finished with an uncompromising attention to detail. The result is a portfolio of products that embody timeless sophistication and exceptional performance.

Every Samuel Heath creation is a testament to generations of expertise, drawing upon the rich industrial legacy of Birmingham while embracing the highest standards of modern craftsmanship. This enduring dedication has established the brand as a trusted choice among discerning homeowners, architects, interior designers and luxury hospitality projects around the world.

The English Tapware Company is honoured to partner with Samuel Heath in bringing this remarkable British heritage to Australia. We are proud to present the first stage of our product release, featuring a carefully curated selection of pieces that are fully compliant with Australian WELS and WaterMark requirements. Enclosed you will find pricing for the first collection to be offered to the Australian market.

This launch marks the beginning of a new chapter, introducing Australian designers and homeowners to a brand whose reputation has been forged over two centuries of uncompromising craftsmanship, timeless design and manufacturing excellence.

Craftsmanship.

From only a brief glimpse of a Samuel Heath product, it is apparent that craftsmanship remains central to their ethos.

At the historical brass foundry in Birmingham, England, products are born from an endeavour of time-honoured craft and advanced precision techniques, informed by unlimited expertise.

With every product, each brass component is meticulously formed from the purest Northern European brass, a sustainable material that allows for the recycling of byproduct. The brass is polished by hand for a flawless finish before undergoing an artisan electroplating process. Attention to detail dictates that each product is then assembled, checked and packed with the utmost care.

Samuel Heath offer regular tours at the factory in Birmingham, England and invite anyone interested in their design and manufacturing processes to visit. Having been on the same site since 1850, the team would be delighted to show you around and introduce you to their craftspeople in person.

Design.

"As designers, our challenge lies in upholding the uncompromising attention to detail that is embedded in our tradition of excellence, while finding ways to refine our manufacturing to conserve precious metals and our factory's consumption of energy.

We take pride in creating beautiful products for everyday use in some of the world's most exciting and inspiring spaces - products that embody the quality and craftsmanship for which Samuel Heath is renowned."

- Adam Daniels, Technical Director

LANDMARK

Landmark consists of distinctive collections: Industrial with its contemporary, bold and urban knurled styling, Lathe with linear grooves and streamlined presence and Pure with its well balanced concise and direct lines. Every component is individually engineered and developed by Samuel Heath's skilled team of designers.

The collection takes its inspiration from probably one of the most influential movements in design history, Bauhaus. Rather than a faithful reproduction of the design sensibilities of the era Landmark possesses an individual identity secured by the finest craftsmanship. One of the core principles of Bauhaus was about designing a way of living and at Samuel Heath they believe that the impressive performance of a shower or tap fixture should be daily delights.

Both Landmark collections include two spout options: the original standard spout and a slimmer, new spout design. This design evolution presents further design possibilities with an enhanced spout selection.

Slim Spout
24mm dia (S)

Original Spout

LATHE Lever (LL)

LATHE Wheel (LW)

The Landmark Collection produced for Australia features 'H' and 'C' flat coins on the Pure and Industrial handles and laser etched hot and cold 'H' and 'C' on the inside cap of the Lathe Levers, and stem of the Lathe Wheels.

SH-LP-G7K17S-2LF-OBM - PURE LEVER - Three-hole wall basin set with flat levers and slim 24mm dia x 180mm spout in Old Brass Matt

PURE

PURE has overtones of the original Bauhaus aesthetic and builds on it. Pure does not attempt to be a faithful reproduction of the products of Bauhaus, rather it utilises a design language that evokes the ethos of the period in an authentic manner.

By size and proportion it displays and celebrates elements of its functionality achieved through a harmony of materials, finishes and exquisite detailing. Pure is neutral and balanced with concise and direct lines.

PURE from the LANDMARK family has minimal detailing is available in lever and crosshead functionality.

SH-LI-G7K17S-3LK-CTB - INDUSTRIAL LEVER - Three-hole wall basin set with knurled levers and slim 24mm dia x 210mm spout in City Bronze

INDUSTRIAL

INDUSTRIAL embraces the functional rationalism redolent of Bauhaus and interprets the values and design it pioneers. Perfect function and beautiful form, achieved by the use of the finest materials and a selection of finishes are also the values embedded in Samuel Heath's long manufacturing tradition.

These core values of acute attention to detail and use of innovative processes are identified in each expertly manufactured piece.

INDUSTRIAL from the LANDMARK family comes with knurled detailing and is available in lever and crosshead functionality.

SH-LL-G7K17S-1LL-ABM - LATHE LEVER - Three-hole wall basin set with cylindrical levers and slim 24mm dia x 140mm spout in Antique Brass Matt

LATHE

Crafted from the finest solid brass and available in a range of luxurious finishes, Samuel Heath's LATHE Lever and Wheel designs within the LANDMARK family deliver a fusion of elegance, durability, and ergonomic comfort.

Lathe Lever features a sleek cylindrical form with finely knurled detailing, providing both a refined industrial look and enhanced grip. Its balanced proportions make it a discerning choice for contemporary and classic interiors alike.

The Lathe Wheel takes inspiration from the tactile mechanics of vintage wheel controls, boasting a distinctive circular motif with clean, sculpted lines.

SHOWERS

The LANDMARK SHOWER Collection brings together Samuel Heath's most versatile showering designs in a system that balances precision engineering with considered design.

Available with Pure, Lathe and Industrial controls, the collection offers three distinct design expressions, from clean and understated to confidently architectural.

Each component is available in Samuel Heath's signature finishes, allowing every element to be matched throughout the bathroom. The result is a highly resolved showering collection that delivers consistency, longevity and a level of craftsmanship that has defined Samuel Heath for generations.

PURE SHOWER

MODEL CODE	DESCRIPTION	Chrome RRP incl GST:
SH-LA-G7K620-C	LANDMARK - Overhead shower arm 90° bend with 500mm reach	\$765
SH-LA-G188	LANDMARK - Discus 200mm shower rose with easy-clean plate - adds 53mm depth overall*	\$875

SH-FA-G2K16M-AMR - FAIRFIELD - Three-hole deck mounted basin tap with metal levers & 150mm high spout, with 144mm reach in Amber Brass

Fairfield

SH-FA-G2K14M-ABG - FAIRFIELD - Three-hole deck mounted basin tap with metal levers & 103mm low spout, with 128mm reach in Antique Brass Gloss

Fairfield

Fairfield taps, showers and bathroom accessories are a balanced combination of the diverse formal design influences of the Arts and Crafts and Aesthetic Movements which flourished between 1880 and 1910.

The careful proportioning of Fairfield also reflects the qualities inspired by the era whilst design options are enhanced by a choice of cross-top controls or levers available in crystal, timber, ceramic or metal.

Crosshead (X)

Metal Lever (M)

Wooden Lever (W)

White Ceramic
Lever (C)

Gloss Black Chrome Lever (GBC)

Clear Geometric Crystal Lever (GC)

Black Geometric Crystal Lever (GB)

Clear Organic Crystal Lever (SC)

IN-WALL ROUGHS

	ROUGH CODE	PURPOSE	EXAMPLE	PRODUCT SUITS
	SH-RG-G168-3IS	ROUGH - Concealed diverter valve rough with one inlet and three outlets.		Suits wall mounted shower diverters Example code: SH-LI-G768-TXK SH-FA-G268-TX
	SH-RG-G720V2-LH-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control on left, with spout outlet on right. LEFT HANDED		Suits the Single lever basin mixers with plate for left hand installation Example code: SH-LI-G7K20-1LK-LH
	SH-RG-G720V2-LH-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control on left, with spout outlet on right. LEFT HANDED		Suits the Single lever basin mixers with no plate for left hand installation Example code: SH-LP-G7K20-1LF-NP
	SH-RG-G720V2-RH-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control on right, with spout outlet on left. RIGHT HANDED		Suits the Single lever basin mixers with plate for right hand installation Example code: SH-LI-G7K20-1LK-RH
	SH-RG-G720V2-RH-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control on right, with spout outlet on left. RIGHT HANDED		Suits the Single lever basin mixers with no plate for right hand installation Example code: SH-LP-G7K20-1LF-NP
 Image indicative only.	SH-RG-G138-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control.		Suits the Shower Mixers on Backplate Example codes: SH-FA-G2K21M SH-LP-G7K21LF
	SH-RG-G139-IS	ROUGH - Concealed in-wall valve rough with temperature and on/off control.		Suits the Shower Mixers on Backplate with Diverter Example codes: SH-FA-G2K22M SH-LP-G7K22LF
	SH-RG-G141-IS	ROUGH - Freestanding bath spout component for rough-in		Suits the Landmark Freestanding Bath Spout Example code: SH-LA-G141

CASE STUDY

This mid-century-modern home in British Columbia, Canada was skilfully revived and transformed by renowned interior designer Erica Colpitts.

LANDMARK - Industrial

Erica was engaged to infuse the interior with a considered muted palette that exudes nuances of softness and warmth, in juxtaposition to the architectural framework.

RESIDENTIAL **Collection:** LANDMARK - INDUSTRIAL **Finish:** City Bronze
Designer: Erica Colpitts **Photography:** Ema Peter

CASE STUDY

A chic country barn in Somerset is skilfully transformed with global influences by its owner and interior designer Siân Parry Jones.

LANDMARK - Pure

RESIDENTIAL **Collection:** LANDMARK - PURE **Finish:** Urban Brass
Designer: Siân Parry Jones **Photography:** Mark Nicholson

RESIDENTIAL **Collection:** LANDMARK - PURE **Finish:** Brushed Nickel / Satin Nickel
Designer: Bee Osborn **Photography:** Mark Nicholson

Note: The Landmark Collection produced for Australia features 'H' and 'C' flat coins replacing the screws on the Pure and Industrial handles.

Projects & Case Studies

Samuel Heath's taps, showers, bathroom accessories, door and window fittings complement the most beautiful of interiors worldwide, from the finest hotels to luxury yachts, elegant country mansions to urban refits. Bespoke specifications are available when the design needs of your project so requires.

Finishes

SAMUEL HEATH FINISH SWATCH	SAMUEL HEATH FINISH NAME	SAMUEL HEATH FINISH SUFFIX	How Australian designers would typically describe it	YEARS OF WARRANTY ON FINISH	COATING	Description
	CHROME PLATE	CP	Polished Chrome	10	UNLACQUERED	Chrome plate is achieved by first applying a base of copper followed by a layer of nickel and then finally a hard gloss coating of chromium is applied to achieve a lustrous hard wearing finish. Samuel Heath offer a 10 year finish guarantee on all chrome plated products.
	POLISHED NICKEL	PN	Polished Nickel	0	UNLACQUERED	Polished nickel is a warm finish which is left unlacquered to develop its own natural patina to develop over time which is part of its charm.
	BRUSHED NICKEL	BN aka SSF	Brushed Nickel or Pewter	0	UNLACQUERED	Brushed Nickel is a brushed satin nickel plated finish for a contemporary look.
	BRUSHED NICKEL WITH MATT BLACK	BNB aka SSB	Brushed Nickel with Matt Black unlacquered	0	UNLACQUERED	Brushed Nickel with matt black chrome, a unique combination which has been developed especially for the Landmark collection. This option combines two of our most contemporary finishes, Satin nickel with just an accent of matt black chrome to finish it off. This finish will age over time.
	ANTIQUE GOLD	AG	Gold plated Unlacquered	2	UNLACQUERED	Antique gold finish has base layers of copper and nickel with a final layer of real gold resulting in a subtle light gold colour. Samuel Heath offer a 2 year guarantee from the date of purchase on their Antique Gold plated finish.
	POLISHED BRASS UNLACQUERED aka NON LACQUERED BRASS	PBU aka NL	Polished Brass Unlacquered	0	UNLACQUERED	This natural brass finish is unlacquered to allow its unique patina to develop over time. Alternatively, if cleaned regularly after use, it can maintain its lustre.
	SATIN BRASS UNLACQUERED aka BRUSHED GOLD	SBU aka BG	Satin Brass Unlacquered	0	UNLACQUERED	Brushed gold unlacquered is a natural brass finish which is hand polished then finely brushed. After brushing, the finish is left unlacquered so that it can develop its own natural patina over time which is part of its charm.
	ANTIQUE BRASS MATT	ABM	Antique or Aged Brass Matt Lacquered	5	MATT LACQUERED	Antique brass matt is a warm metallic colour with an aged effect, preserved with a matt lacquer so that it will remain consistent. There will always be a degree of natural variation in the shade between different components.
	CITY BRONZE	CTB	Dark Bronze Matt Lacquered	5	MATT LACQUERED	City bronze is available throughout the Landmark collection, and is made-to-order specially in the Fairfield collections in metal lever and cross top options. This deep metallic colour is not a living finish, thereby providing a constant finish over time, without wearing. Due to the reaction of the bronze solution with the base metal, there will always be a degree of natural variation in the shade between different components.
	ANTHRACITE	ANT	Anthracite	2	MATT LACQUERED	Anthracite finish is a dark toned metallic finish which has a layer of nickel to create an underlying warmth. The final lacquering and curing results in a complex colour with cool and warm hues which react with light beautifully. The carefully considered matt lacquer creates a slight sheen which enhances the finish. Due to the nature of the process, there will always be a degree of natural variation in the shade of the components.

SAMUEL HEATH FINISH SWATCH	SAMUEL HEATH FINISH NAME	SAMUEL HEATH FINISH SUFFIX	How Australian designers would typically describe it	YEARS OF WARRANTY ON FINISH	COATING	Description
	POLISHED BRASS LACQUERED	PB	Polished Brass Gloss Lacquered	5	GLOSS LACQUERED	Polished brass has a electrophoretic ultra lacquer which provides a highly durable finish.
	BRUSHED GOLD GLOSS	BGG	Brushed Brass Gloss Lacquered	5	GLOSS LACQUERED	Brushed gold gloss lacquered is a natural brass finish which is hand polished then finely brushed. After brushing, we apply a layer of gloss lacquer to provide a wear resistant finish and the contemporary appeal of satin brass.
	BRUSHED GOLD MATT	BGM	Satin Brass Matt Lacquered	5	MATT LACQUERED	Brushed gold matt lacquered is a natural brass finish which is hand polished then finely brushed. After brushing, we apply a layer of matt lacquer to provide a wear resistance finish and the contemporary appeal of satin brass.
	URBAN BRASS MATT LACQUERED	URM	Half Brushed, Half Bead Blasted Brass with Matt Lacquered	5	MATT LACQUERED	Urban brass matt lacquered is a natural brass finish which is part brushed and part bead-blasted. A matt lacquer is then applied to provide a wear resistant matt finish. Some components such as shower heads and hoses do not go through the bead-blasting process.
	URBAN BRASS	URB	Half Polished, Half Barrelled Brass unlacquered	0	UNLACQUERED	Urban brass is new and exclusive to Landmark and this part polished, part barrelled finish perfectly complements the collections urban styling. Urban brass is left unlacquered so that it can develop its own natural patina over time (subject to regular care) which is part of its charm, therefore we do not offer a guarantee for this finish. Some components such as shower heads, hoses etc do not go through the barrelled process.
	AMBER BRASS	AMR	Amber Brass Gloss Lacquered	5	GLOSS LACQUERED	This finish is designed to reflect an aged finish with a colour tone reminiscent of amber, the polished surface undergoes a series of artistic colouring and gloss lacquering techniques to imbue the finish with its resplendent sheen and rich warm tones.
	OLD BRASS MATT	OBM	Streaky Antiqued Brass with Matt Lacquer	5	MATT LACQUERED	Old Brass Matt is an aged brass aesthetic with a warm brass tone with striations of dark tones to create a vintage, layered finish. The additional process of pigmentation allows for the unique dark striations whilst a matt lacquer ensures the finish remains constant. Due to the nature of the process, there will always be a degree of natural variation in the shade of the components.
	ANTIQUE BRASS GLOSS	ABG	Antique or Aged Brass Gloss Lacquered	5	GLOSS LACQUERED	This aged brass finish has undergone a process to mimic a patina effect which is achieved using a combination of creative and technical lacquering and colouring processes. The finish has a gloss lacquer which allows it to maintain its original aged look over time.
	COUNTRY BRONZE	CNB	Mid Bronze Matt Lacquered	5	MATT LACQUERED	Country bronze is made to order across the Style Moderne and Fairfield collections for a metal lever and cross options. A soft rustic colour our applied process is not a living finish, so provides a constant colour without wearing. Due to the reaction of the bronze solution with the base metal, there will always be a degree of natural variation in the shade between different components.
	MATT BLACK CHROME	MBC	Matt Black Chrome	10	UNLACQUERED	Matt black chrome finish is a coloured chrome plated finish which offers a smooth durable result. Base layers of copper and satin nickel give it a highly contemporary matt look which is guaranteed for 10 years.

Guarantees

MECHANICAL GUARANTEE

A 10 year mechanical guarantee is extended on all architectural hardware, bathroom accessories and brassware components to be free from malfunction due to defects in material and workmanship.

SHOWER GUARANTEE

A 2 year mechanical guarantee is extended on all shower components to be free from malfunction due to defects in material and workmanship.

For validity it is important that care instructions in this guarantee are complied with. This guarantee does not affect your statutory rights. All products must be installed by a qualified professional installer in a domestic application for this guarantee to be valid. The guarantee period begins from the date of delivery from our factory and is non-transferable.

“A 10 year mechanical guarantee is extended on all architectural hardware, bathroom accessories and brassware components to be free from malfunction due to defects in material and workmanship.”

Using the finest European brass, our Master Polishers create a perfectly smooth surface with no imperfections. This is crucial in providing a flawless surface so that once electroplated, the finish bares the distinguishing features of depth, lustre and durability that Samuel Heath products are renowned for. An initial coating of copper is not always necessary when plating pure brass but we do so to ensure longevity. Each stage of the process is controlled by skilled technicians to ensure that the optimum depth of metal is applied for a lustrous and lasting finish.

A diverse range of metal and pure brass finishes means Samuel Heath brassware is ideal for both traditional and contemporary settings. Furthermore, many of Samuel Heath's finishes are available across our bathroom and hardware collections, allowing for seamless continuity.

FINISH GUARANTEES

10 year guarantee: Samuel Heath offer a 10 year guarantee on the finish of all **Chrome Plated** architectural hardware, bathroom accessories, brassware and showers. Samuel Heath **Matt Black** is an advanced durable finish which provides resistance to wear and is guaranteed for 10 years.

5 year guarantee: Samuel Heath offer a 5 year guarantee from the date of purchase on City Bronze, Country Bronze, Antique Brass Matt, Antique Brass Gloss, Amber Brass, Anthracite, Brushed Gold Matt, Brushed Gold Gloss, Urban Brass Matt, Old Brass Matt and Polished Brass lacquered.

2 year guarantee: Samuel Heath offer a 2 year guarantee from the date of purchase on Antique Gold plated finish.

Other finishes: Polished Brass Unlacquered (aka Non-Lacquered Brass), Polished Nickel, Satin Nickel, Satin Chrome, Brushed Nickel, Bronze finish, Antique Brass Unlacquered, Urban Brass and Satin Brass Unlacquered (aka Brushed Gold) develop their own patina over time which is part of their charm therefore we do not offer a guarantee for these finishes.
